SPACE STATION THUNDERCHILD
MILDA REGION, ALTITUDE 3,850 METERS
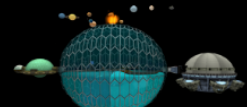

STAFF

General Administrator: AJ Leibengeist

Station Manager: Iris Herouin

Superintendent: bearofboogie

The station spans the Milda and Malyshkin Regions. The main body of the station is in the north part of Milda with the large ship platform in Malyshkin connected by a corridor. The altitude spans from 3,750 meters to 3,950 meters.

The Main station is a single six level stack superstructure. The stack levels start with Level-01 at the top and Level-06 at the bottom. The SSTC is one of the larger stations in SL that can accommodate larger ships. Long-term docking arrangements can be made.

The S.S. Moonshadow is a separate station located at the same altitude in the Milda Region. It can be reached by tramcar.

LEVELS

The station is located at an altitude of 3,810 meters. It is a single stack superstructure. The stack consists of six levels with one being at the top and six at the bottom. Moonshadow Station for shipping and receiving is reached via a Space Tram or Teleport. The stacks are as follows.
