Framed Artwork, 1970's Art Cards
Scenic Grandeur of the West

TCGWS

There are from my memorabilia collection from the 1970's. Dad had a month's vacation ever year were we loaded up and toured the country.   I collected a lot of stuff and have brought it in-world to share. These the the images along with frames and frame textures. The images are contained in the objects and can be changed by touching the artwork or the frame. Each will cycle through the textures for that part. There is a tag on the back with a link to the PDF document for this item.

I did a digitizing spree on my collections after settling in ABQ for retirement.   You can find parts of these collections presented in SL on various items and books.

The items can be seen at the Milda locaions.
