

Coffee MUG

These coffee mugs will work the HUDs designated for the mugs. You can add textures to your mugs with premade or custom HUDs.

These are standard coffee mugs with selectable textures inside bytouch.

Models

The cup works with any avatar. Adding or wearing it will attach it to your right hand. The mug is modeled while sitting on a table. It will rez upright in-world for that purpose. For the first time use of wearing the mug, you will need to change the rotation values for holding in your right hand. The values I have on mine are listed Below. You may have to adjust it in your hand while on a posing stand.

X = 0.0000000, Y = 270.0000000, Z = 274.5000000

After setting these values, take the mug back into inventory and then add or wear it. You may have to make adjustments to fit your fingers and palm. You can make copies of the MUG.

The items can be seen at the Milda locations.
