## BEAR OF BOOGIE LAND DESCRIPTION

Revised: 04/06/23

Bear of Boogie (BoB) Land is in the Triasm Region along with The Sandcastle. BoB is on the east side of Route 8 and The Sandcastle is on the west side. There is a pedestrian entrance on the south side of Route 8 and parking is across the street at The Sandcastle.

Triasm is a mainland region and will support a maximum of 40 agents. This site is operated by bearofboogie Resident and is part of the TCGWS Group.

The sites hosts the LGH Fishing and Gold Hunt games. The fishing hole is also a center stage. On other levels, there is a Garden overlooking the local lake. There's a patio with several different board games, a couple of pool tables and an air hockey table. There is a flight deck for GridHaul and GTF0 haulers along with public flyers and hoverboards.

The iRadio station KOCK.rocks at <http://kock.rocks> is the provider of the music and media streams, unless the parcel is being used by another DJ for a party.

### Center Hole and Stage

The fishing hole is also a center stage for the surrounding decks and seating. There are four levels of circular decks around the center Fish Well. The well is generally set up for LGH Fishing with worms, positions, and powders sold to the side by various vendors. There is a lever on the back neck of the Moi that opens and closes the stage over the well. The deck can be used as a dance floor or other open space activity.

### The Sandcastle

The Sandcastle side hosts the Mirror server site and group sandboxes. Residential units are available on the Space Station Fighting KOCK (SSFK) and the Fighting KOCK Rock (SSFK-rock, Asteroid base). These units are covered in more detail in a separate document, SS\_Fighting\_KOCK-Description.

[https://thunderchild.net/SL/doc/SS\\_Fighting\\_KOCK-Description.pdf](https://thunderchild.net/SL/doc/SS_Fighting_KOCK-Description.pdf)

The SSFK-rock is located at 3896 meters and can accommodate two small ships. The SSFK has two residential units with their own set of domed pads. There is a 30-meter domed pad and a docking tube for larger ship. The station manager is Iris Herouin.

BEAR OF BOOGIE LAND

The Sandbox also hosts GridHaul and GTFO haulers. The ground site can service balloons, blimps dirigibles and helicopters. The SSFK will host 30-meter ships in the landing dome or larger ships on the docking tube.

## ***TECH ON SITE***

There are various teleport and relocation technologies on site, some for specific purposes. Some of the tech on site works via an experience. You'll be asked permission to accept the experience when you first use the tech. Casper Technologies provides the main sales systems, teleport tech, security, and records. Kool Mechanic provides doors and interfaces to Casper. Kool Rez is used for deploying and retrieving objects and scenes. If you have questions or issues, please address them to one of the staff members. There are status and message boards for all staff members and help in the office. Use the portal door teleporters for the office.

## ***TENANT AND ON-SITE BEHAVIOR***

- This is a moderate area, keep adult activities inside. Nudity is allowed without erections or sex.
- No grieving, bashing or hateful activities allowed.
- Flying is restricted from the ground to 150 meters and in the gaming areas a loft. Use hoverboards.
- Everyone is considered a responsible adult and treated as such regardless of your avatar form.
- Age restrictions may apply.
- Voice is allowed for everyone and between sections and other parcels. Please manage your voice controls and language accordingly.

## ***ALL THINGS NOT ADDRESSED***

If in doubt or you have a question, talk or chat with the owner or other staff member.
