BOOK A Crash of Rhinos Production and Artwork

NOTE:

This is a book on the artwork production of A Crash of Rhinos. It covers the background information, medium, and descriptions of the artwork pieces.

There is also a smaller scrapbook that covers the same and information on real life products from the artwork. The book is Copy Only permissions, and the scrapbook is copy and transfer permissions.

The Crash of Rhinos consists of fifteen drawings depicting the story of Five Rhino, six Mechanical Rhinos, the Crash Mountains, the Domed Cities, and a population forced to leave their world.

The Crash of Rhinos occurs around a group of mountains. The west side of the mountains faces an ocean and the east side, a large plain with a city just before another mountain range. The Crash occurs over a span of two epochs. The first epoch is the time of the "living Rhinos." After their extension, the second epoch is the era of the Domed Cities and Mechanical Rhinos. The last epoch ends with the exodus of the remaining population to another solar system.
