SPACE STATIONS IN SL (copy only or transfer only)

NOTE:

This Book comes unpackaged. The Book contains Images, notecards, landmarks, and some objects that are given out by the pages. You'll need to rez the book inworld to use. **This book does not wear as a HUD.**

This book comes as a Copy Only (rx) and a Transfer Only (tx) version. Note the "rx" or "tx" at the end of the SKU.

There are 190 pages designed for a two-page design. The first four set of pages show how to use the book, list the contents, and provide a basic main continent and world map. Landmarks are from the GTFO (Get The Freight Out) group and IVE (Iris Virtual Enterprises).

I'm in the third year of creating my inworld presence. Still a lot of work to do. The space stations of TCGWS are built by Iris Herouin. You can find her office on SSTC (Space Station Thunderchild) in Milda. I plan to update this book about every two years.

The Station pages are a photo of the station, dock or area. The title is in the upper left corner. It notes the Continent – Region – Station or Parcel Name – Altitude in meters. Two Icons will indicate if the site is isolated from the mainland and if there are teleport restrictions. Touching the left page will give you the landmark.

FEATURES

- Book with 190 pages.

- Contains landmarks and notecards given by pages.

- Images are two-page layouts.

- Copy only or transfer only versions.

TOS

A complete listing of my TOS in PDF can be found at https://thunderchild.net/SL/doc/TCGWS-TOS.pdf. Refer to the Second Life Terms of Service https://www.lindenlab.com/legal/second-life-terms-and-conditions.

UNPACKING

This product comes unpackaged and ready to use.

CasperVend items will probably show up in your Objects Folder. The same product delivered by SL Marketplace goes to your Received Items Folder.

AVAILABILITY & ADDITIONAL INFORMATION

The homepage is https://thunderchild.net. Special arrangements and designs are available by contacting me, the artist in-World (Thunderchild Allen aka AJ Leibengeist).

Many of the products shown are available in SL and RL.
