## Rude Biker Images Patch Set

07/22/21
Thank you for your interest and support!
This is a texture. Copy contents to inventory. Then either drag and drop it onto the face of the object
 you want to apply it too, or use the editing tools to apply it to the object and face you want it on.

This applies to textures and images in one or more formats (jpg, png, gif, tga.) and may be Full Permissions or Copy Modify Permissions. Full Permission Textures are for Builders, makers and DIY people. If you're the DIY type and have questions, feel free to hit me up.

COPY, MODIFY, NO TRANSFER.
You have copy and modify permissions for all the textures in the package. Textures only sets are for personal use and not resale, therefore the low price. The textures can be copied in the inventory, copied onto object faces and they can be called by objects using the UUID from your inventory. Objects with these permissions can be copied and modified directly with the edit tools. If you loose your items, both the SL Marketplace and CasperVend systems can redeliver your purchase.

The Images Patches Set are Public Domain images from the Internet that I've taken time to download, edited, packaged and uploaded at my costs for retail in Second Life. That's one reason for low price, but it pays for means and only encourages me. ;-) As of this production, I'm recovering from a car pulling in-front of me on my Yamaha Raider 1900cc....Purchase for Empathy or Sympathy.

## FEATURES

- One texture Image inside
- Modify and Copy

## UNPACKING CASPERVEND

CasperVend items come in a box and will probably show up in your Objects Folder. You'll need to rez the box and open it to copy to your inventory.

## UNPACKING SL MARKETPLACE

Markerplace purchases most likely will not be boxed and can be viewed in the contents tab on the product page. Those items will go to your Received Items Folder in your Inventory. Items with no copy permissions, will move in and out of inventory as you rez them and take them back.

## INFORMATION

These are quick patches from the Public Domain. I plan to create my own version of these patches later. Those will be available in SL and RL outlets.

## AVAILABILITY
