

## CONSUMER BOX

### Rude Biker Patch in General Triple Set

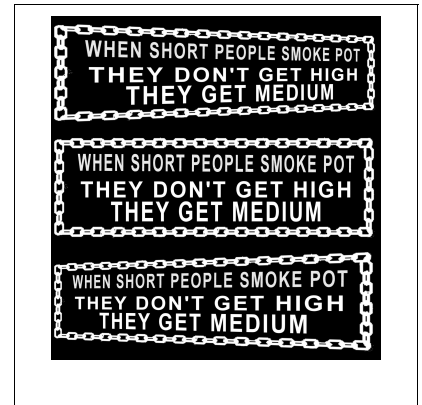

This is a texture with Copy and Modify permissions.

The texture has a right skewed image of the patch at the top and a left skewed one at the bottom. The middle image is straight. Adjust the image display to 1 width and .33 height approximately and adjust the vertical offset for the image desired.

I find that vests with the faces of the patches part of the clothing will require one of the skewed images in the upper patches. The others do fine with the straight image. If the image has a border that is not fitting right, you can use the version with no borders and just the message. I am available to help with or do custom adjustments for patches. Depending on the number of images wanted, the custom fee ranges from L\$0 to \$2 per patch.

For clothing that have a separate patch attachment, I find they work great with the straight images. Which makes it easier to produce more variety of patches with less frustration.
