

Rude Biker Patches – General Inforamtion

General to Moderate Content,
Some adult language and humor.

These are the 4th version for these sets of patches. The set will include four textures for the slogan. Two with Chain boarders and two without. For each of the two there is one that is a transparency.

Each textures will have three images on it. The one in the middle is mean for squared or rectangle patches all with 90 degree corners. The one at the top and bottom are skewed left and right for patches that work best with a skewed image.

This is a texture. Copy contents to inventory. Then either drag and drop it onto the face of the object you want to apply it too, or use the editing tools to apply it to the object face you want it on.

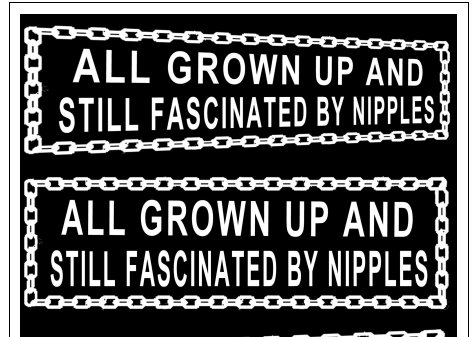

For patches on clothing that are not even in the sides or skewed, I will make an adjusted texture for you to use. If you need an adjusted texture after purchase, come see me and well make time to customize it for you.

Do not use them in RL products. Contact me in SL for any other SL or RL use. In SL, they must be part of a build and not as Full Permissions. (Full Perm). UNPACKING CASPERVEND

CasperVend items come in a box and will probably show up in your Objects Folder. You'll need to rez the box and open it to copy to your inventory.

UNPACKING SL MARKETPLACE

Markerplace purchases most likely will not be boxed and can be viewed in the contents tab on the product page. Those items will go to your Received Items Folder in your Inventory. Items with no copy permissions, will move in and out of inventory as you rez them and take them back.
