

NOTE:

THESE ITEMS ARE TRANSFER ONLY PERMISSION.

Currently, these are available just for the Crash of Rhinos and KOCK.rocks products. This is a decorative art crate with four items inside.

1. One 12-pack regular beverage dispenser.
2. One 12-pack diet beverage dispenser.
3. One decorative beverage crate with four textures by menu.
4. One decorative art crate with multiple textures and resize by menu.

The decorative beverage crate measures 0.25385 x 0.25385 x 0.25385 meters. There are four textures inside selected by menu on touch. This box does not resize. The crate sold by itself has a resize script as well as additional textures.

The 12-pack boxes measure 0.18191 x 0.31954 x 0.20540 meters. The box is a prim with all cans inside being mesh. The script inside gives one available can to the person that touched it. There are 12 cans inside. Transfer only items can be obtained by anyone, passed around, and traded. Each can is received unpackaged and ready to use.

The default rotations for the can are (x:358.85001, y:73.95001, z:190.09999). Depending on the label design, people can adjust the rotations for their desires. The can is a Mesh creation with its top images (open and closed) by Jenny Collazo. The script is by Blu Heron and provided by Jenny.

The decorative art crate matches the delivery crate when first rezzed. There are multiple textures inside that are selected by menu on touch. A removable resize script is included. On touch, both menus appear with one on top of the other.
