

## CHECKER BOARDS, TEXTURE SETS, STANDARD & NON-STANDARD BOARDS

### NOTE:

Standard checker boards are 8 x8 squares, have two to three tones per quad with one pair of identical squares. Some textures are completed 8x8 patterns and others are just the 4 square quads that are repeated 4 times each direction for the completed checker board.

Non-Standard checker boards do not follow the 8x8 patterns of the standard. There are different number of squares on each side and the pattern may have mixed sizes and rotations of squares.

These are generally packaged separately, and each has its own demonstration objects. Demo objects are a table with the texture applied to the top or a two pair block object. The horizontal and vertical scaling is noted with the demo. The table is either 1x1 or 4x4. The smaller block is 1x1 all sides and the larger block is 3x3 all sides.

Touch the object to change the texture. The object has a 3-hour life span.

Full permission textures come with a HUD with links to the zip file for download on Google Drive. Other links include the TOS, product information, and other storefronts.
