

FULL PERMISSION TEXTURE

Rude Biker Patch in General Triple Set

This is a texture with Copy, Modify and Transfer permissions.

The texture has a right skewed image of the patch at the tip and a left skewed one at the bottom. The middle image is straight.

I find that vests with the faces of the patches part of the clothing will require one of the skewed images in the upper patches. The others do fine with the straight image. If the image has a boarder that is not fitting right, you can use the version with no boarders and just the message. I am available to help with or do custom adjustments for patches. Depending on the number of images wanted, the custom fee ranges from L\$0 to \$20 per patch.

For clothing that have a separate patch attachment, I find they work great with the straight images. Which makes it easier to produce more variety of patches with less frustration.

UNPACKING CASPERVEND

Casper Texture Vendors located in-World hold and display textures. You can browse them one at a time or use the Overview button to see the first 25 images. Note, there may be one to a few more images past #25 that will not display in the Overview. You'll need to use the browser to hit the end ones.

CasperVend Vendors deliver items in a box and will probably show up in your Objects Folder. You'll need to rez the box and open it to copy to your inventory.

UNPACKING SL MARKETPLACE

Markerplace purchases most likely will not be boxed and can be viewed in the contents tab on the product page. Those items will go to your Received Items Folder in your Inventory. Items with no copy permissions, will move in and out of inventory as you rez them and take them back.
