

Revised 11/08/23: removed Casper updater for suspected issues. Changed box permissions to modify and copy. Added instructions from customer comments.

Closed Captions instructions for HIVID Cinema screen by HIVID

NOTE:

This box contains all FP items. The images are included in the delivery box along with the instructions giver box that gives the notecard with instructions and images on touch. Place it near your HIVID screen for users to access. Translations are in the following (let me know if you have any language requests to be added).

Language translations are performed by Google Translate from English. Current languages include ENGLISH, PORTUGUESE, FRENCH, SPANISH, GERMAN, CHINESE SIMPLIFIED, and JAPANESE.

If you don't yet have and HIVID and would like to see an enlarged cinema size one, visit the Bumblebee Buzz Cinema in Milda, <http://maps.secondlife.com/secondlife/Milda/220/25/40>. The CC Box is there too.

FEATURES

- Gives CC instructions for HIVID screen on touch.
- Notecard and images are full permission.
- Notecard giver box is mesh and copy only.
- Box auto checks for updates once a year.

INFORMATION & INSTRUCTIONS

1. If you purchase this inworld, it will come in a box with the contents. If you purchase it from the Second Life Marketplace, the contents will show up in your Received Inventory. There will be an inworld delivery box with the contents as a backup.
2. The contents of the box are shown in List 1. The four objects are the backup box, and three sizes of the HIVID-Closed-Captions-Options. The HIVID-Closed-Captions-Options are copy modify permissions and contain one giver script "NOTECARD GIVER dhy" (copy only) and the notecard of CC instructions "Closed_Caption_Options" (full permissions).
3. The CC instructions notecard has the ordered list of languages for each separated instruction group with the full permission texture for that instruction. See image 2. All the full permission images used are included in the contents so you can use and download for manipulation.
4. Drag any of the HIVID-Closed-Captions-Options cubes to the ground for use. Resize and position it as wanted.
5. There is "spin" script with modify and copy permissions in the contents. Use this with the boxes to add spin. The best value to use for spin preset to 0.05.
