HUD & USE

The HUD system I use is by Creative Designs. The HUD and clothing work on a channel number, Similar clothing lines will have the same channel number. All Women's Polo shirts are on the same channel and can be used with all the sets of HUDs for the same Polo shirts. The HUD provides control for color tinting, shininess, glow, alpha, texture and bright for thW clothing.

HUD for DSL Reward Clothing

Once you've added the clothing to what you are wearing, double click on the HUD to attach it to the screen. You can move it around using the editing tools. Hit the open/close button to close and reopen it so the scripts have all reset.

You will need to touch the select the shirt button and then touch the select texture button. This ensures the clothing is selected.

You can now play with the other sections. The Color tinting will apply a color to the clothing. The sizing buttons will change the overall size of the clothing to a certain degree. The eye on the Alpha row, will make the clothing transparent. The Red Xs will cancel any one of the alterations.

The Info & RL Links provide information and landmarks for inworld sites. The HUD label will open the SL Marketplace page and the URL PDF will open the current PDF file from SL.Thunderchild.net.

The diagram points out the areas on the HUD.
