### NOTE:

This HUD is transferable. It come alone ready to wear and comes with packaged mugs and tumblers in Second Life.

The Second Life mug is made by ErwinSchroedinger. All textures are made by AJ Leibengeist at the Thunderchild Gallery Workshop. Textures are from inventory texture collections and artwork and are available as full permission textures at AJ's Texture Gallery.

In real—life, mugs and tumblers are provided by 3<sup>rd</sup> party on-line stores. The HUD has links to RedBubble.com and Society6.com for AJ's storefront and collections for Mugs and Tumblers with matching textures from Second Life.

## UNPACKING

CasperVend items come in a Mesh Crate and will probably show up in your Objects Folder. Items with and “tx”, “rx” or “cx” at the end are unpackaged items ready to use. You'll need to rez or wear the delivery crate for it to open and copy to your inventory. The same crate is delivered by the SL Marketplace. It will go to your Received Items Folder. The front label on the crate has a menu to select the label, a blank, the TCGWS logo, and any information images for the product. The crate will open a menu to unpack when it is rezzed. After unpacking, it will offer to delete or cancel. Keep a copy of the create so you can always get the textures if you need them.
