## HUD & USE

The HUD system is by Creative Designs. The HUD and clothing work on a channel number, Similar clothing lines will have the same channel number. All Women's Oversized T-Shirts by White Canvas with the SKU **ovrsztsht,wc1** are on the same channel and can be used with all the sets of HUDs for this shirt. The HUD provides control for color tinting, shininess, glow, alpha, texture, and brightness.

Once you've added the clothing to what you are wearing, double click on the HUD to attach it to the screen. You can move it around or enlarge it using the editing tools. Hit the open/close button to close and reopen it so the scripts have all reset.

Touch the shirt button and then touch the texture button of your choice. The Shirt will change textures. There are six textures. Three have no shading applied. If your graphics are high enough, the shading and shadows will be made the graphics settings. If you are running on lower graphics settings, the shaded ones have shading applied to the textures.

You can now play with the other sections. The Color tinting will apply a color to the clothing. The sizing buttons will change the overall size of the clothing to a certain degree. The eye on the Alpha row, will make the clothing transparent. The Red Xs will cancel any one of the alterations.
