

HUD ONLY

AJL FRACTAL 1st BURNS OPEN FRONT SHIRT (Z) GROUP c

NOTE:

The Men's Open Front Shirt is made by Meli Imako. Models include Adin Bento, Fitmesh Classic, MI MADO, Belleza Jack, Slink Male, TMP Male and Onupup.

There is one textures that cover the shirt body, pockets, and button area. They can be applied altogether or separately. This has allowed an additional column of button selections from the button collection. I'll have HUDs with pocket emojis. The Fractal 1st Burns are digital imaged fractal burns into various woods. The images are modified for color, hue, tinting and other filters to get various colors. Some of the burns are reduced to two-bits and used as masks in the blending processes with the smoke and other fractal images. You can find these images and masks at AJ's Texture Gallery.

The collection of shaded and unshaded textures are split between two HUDs that can be purchased with their own shirts or separate. Each packaged contains 9 unshaded and 9 shaded paired shirt textures and 9 additional button sets. I provide several textures selections for the shirt and buttons on full size HUDs. Individual Shirts and button may be available separately and custom orders are welcomed.

Clothing Model & Textures Displays

Demos are free items, and you can get more if needed. There are Demo sets have all the models and ones with individual models to try before buying. Demo models and their HUDs will have a 10-minute life span. Demo HUDs for texture expansions or accessories like buttons and pockets will work with the clothing from this or other purchases. They will have a 10-minute life span.

All clothing items have a basic demo at minimum. Demos will be updated during the 2022/24 phase and Demo HUDs will be added. Demos for clothing can be viewed at the Milda location. <http://maps.secondlife.com/secondlife/Milda/129/156/51>. Textures used for clothing can be purchased as full perm textures at AJ's Texture Gallery in Aksharumova, <http://maps.secondlife.com/secondlife/Aksharumova/160/144/77>.

HUD & USE

The HUD system I use is by Creative Designs. The HUD and clothing work on a channel number. Similar clothing lines will have the same channel number. All Women's Polo shirts of same make/model are on the same channel and can be used with all the sets of HUDs for the same Polo shirts. The HUD provides control for color tinting,

shininess, glow, alpha, texture and bright for the clothing.

Once you have added the clothing to what you are wearing, double click on the HUD to attach it to the screen. You can move it around using the editing tools. Hit the open/close button to close and reopen it so the scripts have all reset.

You will need to touch the select the shirt button and then touch the select texture button. This ensures the clothing is selected.

You can now play with the other sections. The Color tinting will apply a color to the clothing. The sizing buttons will change the overall size of the clothing. The eye on the Alpha row, will make the clothing transparent. The Red Xs will cancel any one of the alterations.

The Info & RL Links provide information and landmarks for inworld sites. The HUD label will open the SL Marketplace page and the URL PDF will open the current PDF file from SL.Thunderchild.net.
