## **SECURITY TCGWS**

Security handles Greeting and assistance for the parcel. The security office can be done in one of three ways from one of three locations.

1. Accept the job description from the job board and start the security job.
  - a. Run around and greet and assist as necessary. Distance is 30 meter radius from the job box. There is a rezzer for a temp distance ring for 1 minute that will be the area.
  - b. Take a set at the CCTV desk and use the cameras and intercom to greet and assist as necessary.
  - c. Do a combination of a and b.
2. Check out the other jobs.

There are three seated areas with a preconfigured CCTV desk and site intercom. There are also a weapons rack with shotguns and a SL MP baseball bat in the Server Room. Please pay attention to the Safety Status for the site. With safe off, agents can be killed, which generally sends them home. With Safety on, you can get someone's attention with weapons use. Any pushing or ejection on someone should be given great consideration. Locations for Security are listed here.

- Moonshadow Shipping and Receiving office next to the South entrance of West Park.
- The Server Room on the 3<sup>rd</sup> floor of the office building in the parking lot.
- The Corridor on the Moonshadow section of the Space Station Thunderchild.

## **CCTV & INTERCOM**

The CCTV provides viewing of the fishing buoys, shipping and receiving areas, product display and vending areas and some coin locations. The Greeter can also use their local radar on their browser to find, track, and assist Agents (avatars). The Intercom has buttons for different areas in the parcel. You can select one or more of the areas and then use Nearby Chat to transmit your message. Clear the buttons when you are done.
