My, how the ~~Zombie Apocalypse~~ COVID Pandemic has changed plans and life. Plans include becoming a Low Power FM (LP-FM) broadcast station in Duke City. Currently, a bug is in the way of several things.

History Background

College, everything starts in college, brewing, growing your own, tech giants. Some things are made in high school, ceramic bongos from pottery, metal power hitters from shops and that aluminum coke can bong from economics class. But the really good stuff starts in college, for the serious that is.

KOCK.rocks has Punky Rooster. Something American and looks good as a tattoo.

America has developed her own styles over the years. This is the result of America being the melting pot of the World.

There has been a wide variety of music and sounds that has been streamed from KOCK.rocks since inception. KOCK has been an Internet Radio station since 1996, Moving forwards, there's a lot of work to do before moving to a Low Power (LP) FM station, Variety is the Spice of Life, KOCK.rocks is on a mission to remind America that America is as the World and to show the World Harmony through Diversity.

I've had what I called my bipolar stream up since college days at DeVry, Institute of Technology in Kansas City, Missouri. I named it KOCK and added it as /kockrocks to my personal site that resulted from another assignment. It was cheap enough to grab a domain for S&Gs, (shits and grins) just to take my assignments serious. There just weren't any domains that I wanted to follow with "kock dot ..." existing at that time. It stayed that way for some time until August 6, 2014, when the Domain .rocks became available.

I had Thunderchild.net for some time before the "dot rocks" domain name was out, and it happened just at the right time I wanted to get more fully engaged in music and musical ambitions. The project is called "KOCK.rocks BiPolar Radio" and is publicly posted here at this site, <http://kock.rocks/> with an associated live stream(s) posted at <http://SHOUTcast.com/>. At a future time, KOCK.rocks will file as a non-profit LLC to obtain the LPFM broadcasting license.
