

NOTE:

THESE ARE TRANSFER ONLY PERMISSION OBJECTS.

The can is transfer only. It can be obtained by anyone and passed around. The dispensing mini vending machine will deliver the can or cans when rezzed or attached (in case you don't have local rez permissions).

If you rez the can, it will probably be upright, you probably will need to adjust the can after attaching it to your hand. The tilted x,y,z values are listed in the features. I find that there are certain rotations I want for certain labels, and you probably will too.

The can is a Mesh creation with its top images (open and closed) by Jenny Collazo. The scripts are by Blu Heron and provided by Jenny.

FEATURES

- Machine Box gives the can on rez or wear. Then it deletes.
- One can with label, script and animation. Tilted when rezzed for wearing (x:358.85001,y:73.95001,z:190.09999)
- The animation script swaps the top texture out for open when being worn.
- Transfer only items will move in and out of inventory as you rez them and take them back.
- Seven different label sets, each with menu selection.
