Rev. 08/25/23

NOTE:
The permissions for posters and unframed art objects are as follows.

•   Image on mesh with modify and transfer permissions.
•   Image on prim with modify and transfer permissions.

Scripts and images inside the object are transfer-only permissions. The modify is on the prim or mesh canvas. This allows you to attach and link to a frame of your choice. The resize script should work on both the canvas and newly attached frame.

The product is available in a prim version and a mesh version. Depending on the frame you get for it, either the prim or mesh will have the lowest impact change. Grab the demo or the canvas test kit to experiment.
