

RUGS SSTC JAMES WEBB IMAGE SETS

NOTE:

THE PERMISSIONS FOR THE RUGS ARE COPY ONLY.

Full permission textures are available and packages separately at AJ's Textures Gallery.

COPY RIGHT NOTE

All my images are obtained from publicly accessible databases or from stock libraries I belong to with licensing privileges.

Space-related objects, real or virtual, are marked under the Space Station Thunderchild (S.S.T.C.) logo. The station has areas for commerce and vending, as well as other amenities. You can find browsers on site linking to real world space station feeds (I.S.S. HDR feed), real world terrestrial and celestial telescopes and databases.

FOR ALL RUGS

Touch the front of the rug to get the texture menu. There is a label on the back of the rug. Not all rugs have a back face for textures, so the label may be the only thing visible on the back. Touch the label to get the size menu. The resize menu has a delete option to remove the script once you have the size you want.

FEATURES

- Stellar images on rug.
- 13 to 22 textures in stellar image rugs.
- Resizing script in the label on the back.

DEMOS & HOLOVEND VIEWS

There are demo models available on the Marketplace, inworld on Casper Vendors and HoloVendors. Demo models will last for one hour or so.
