SPECIAL DOCKING ATTACHMENTS

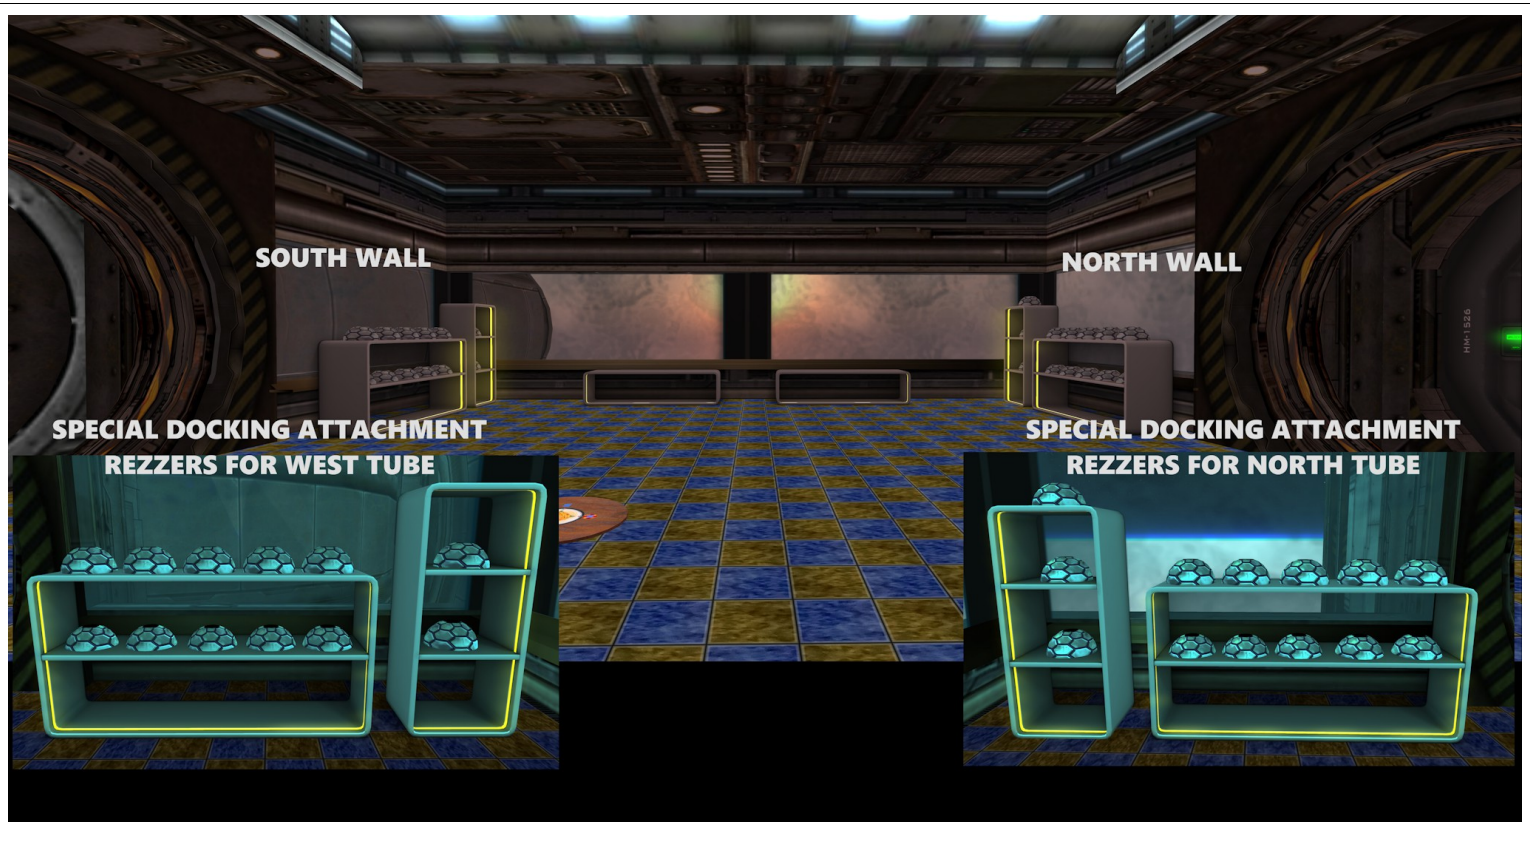

Special Docking Attachments, Landing Pads and Hangers are available for ships in the Rez Room Q04D. This is the lower level of the Quarters Deck. Level Q04 has the Station's Shuttle Hanger and two large ship docking ports with rezzers for special attachments and docking requirements. There is a large blue orb on the NW corner of the Rez Room. Touch this for a TP into Rez Room.

The SLurl is

<http://maps.secondlife.com/secondlife/Milda/100/193/3811>

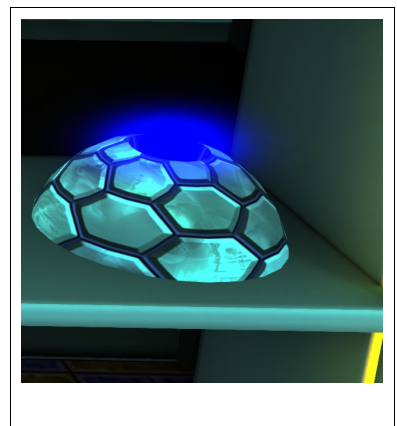

The Rez Room Rezzers for the North and West docking tubes are on the North and South wall respectively. The

North Docking Tube is connected directly to the Rez Room and can be accessed directly. The West Docking Tube is connected to the center Lift Stack and can be reached from there.

NOTE

- There are demo ships for each of the docking attachments.
- Some are not available for flight, just looks.
- Some of the docking attachments are assembled with two rezzers.
- When a rezzers is in use, a glowing ball will be on top of the rezzers.
- Rezzers do not have timers, so a rezzed docking attachment will remain until it is manually derezzed.
- Rezzers are in sets by numbers. A rezzers that works on the same tube and area will automatically derez when another rezzers uses that same tube and area.
- If you need an attachment that is not available, See Iris Herouin, Station Manager.

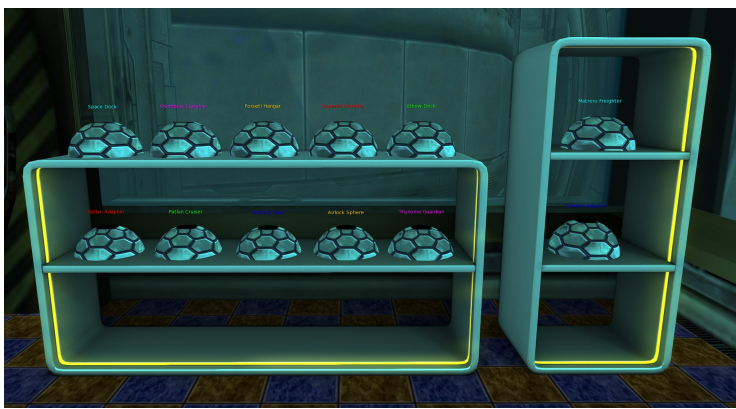

Rezzer Attachment List

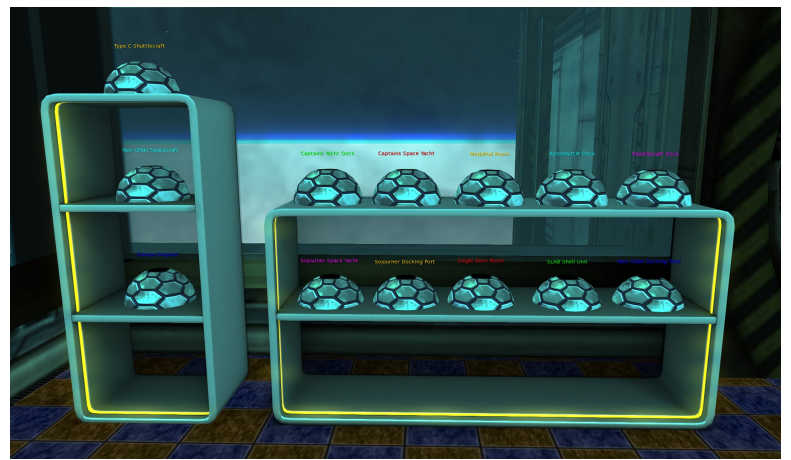

Each of the rezzers has a float text tag above it. Images of each attachments or attachment set are shown below.

NORTH SIDE REZZERS

Type C Sshuttlecraft	Captains Yacht Dock	Captains Space Yacht	ModuPod Room	Aeroshuttle Dock	Shuttlecraft Dock

FEES

Docking ports and accommodations that can be rented, will have a rental box or meter near the door. For large ship, the meter will need to be unlocked prior to rental. Rentals are based on the amount of land impact needed for the ship and other personal accessories.

- General Prices are L\$1 per LI per week.
- Please see the [TCGWS-PRICES](#) document for current pricing, discounts and bonuses.
- Total Discounts are available for GTFO and DSL members.

Residential Quarters with personal hangers may be available for short times when non rented. Shell module rentals do not have a space station dock assigned since they are short term in nature and docking is assumed to be one of the public connections or a vehicle in a parking area. Shell rental for long term uses can use parking slots at ground or other level.

Special grouping of shells, rooms, docking and parking can be bundled. Contact any staff member for questions or requests.
