The Sandcastle Sandbox

The Sandcastle side hosts the Mirror server site and group sandboxes. Residential units are available on the Space Station Fighting KOCK (SSFK) and the Fighting KOCK Rock (SSFK-rock, Asteroid base). These units are covered in more detail in a separate document.

There are working grids on the ground level. Both are operated by level for raising it up to work and going vertical.

Sky platforms are available on site. The round portals teleport between platforms. Each platform has a set of rezzers for larger working spaces. Directions are on the wall by the ground portal.

A screenshot of a virtual interface showing sky sandbox platforms. The title is 'SKY SANDBOX PLATFORMS'. It lists three platform sizes: '1 Square Platform = 64m x 64m', 'Small Platform = 128m x 64m', and 'Large Platform = 170m x 160m x 233m'. There is a grid on the roof and a menu of different textures. A small sandcastle icon is in the top right corner.
