

AJTG SHOWROOM HUDS

NOTE:

These are temporary HUDs with a 3-hour life span. They work with the Wall Interiors Inserts in the Showroom at AJ's Texture Gallery.

When you arrive at the landing spot at AJTG or park off street in the public rez zone, you can use the blue teleport pads to go to the Showroom.

Once in the Showroom. You'll need to rez one of the inserts from the rez panel on the south side of the center wall opening.

You can then select HUDs from the Casper Vender on the north wall to apply textures to the surfaces of the insert.

FEATURES

- Two Demo Rooms to sample textures
- Preview textures in a room setting before purchase.
- Easy to use.

UNPACKING

These HUDs come unpacked and ready to wear from the vendor. You can adjust the size and location of the HUD once you've attached it. The receiver for the HUDs is the information plaques on the south wall. If you have trouble with the textures applying, move closer to the plaques.

CasperVend items will probably show up in your Objects Folder and SL Marketplace items will go to your Received Items Folder in your Inventory.

You'll need to wear or add the HUD to your avatar to use it.
