

## SKULL TEXTURE COLLECTION IN FRAME, CANVAS, AND TEXTURES.

### NOTE:

This is for the packaged and un-packaged textures and products around the skulls collection. These products are by AJ Leibengeist at the Thunderchild Gallery & Workshop (TCGWS).

The skull textures are used to create mesh and prim canvases with two sets of permissions.

- Mesh Canvas with copy and modify permissions. (CANVASm....mc)
- Mesh Canvas with transfer and modify permissions. (CANVASm....mtx)
- Prim Canvas with copy and modify permissions. (CANVASp....mc)
- Prim Canvas with transfer and modify permissions. (CANVASp....mtx)

Framed products are of two types. A mesh frame with a prim canvas for lowest LI. A mesh frame and canvas together. Framed products have transfer only permission (Framed-...)

The textures and scripts are inside the appropriate object. The modify permissions on the canvas will allow you to link it to a mesh or sculpted frame. You can copy the textures and scripts to another object for use or to a server for UUID calls. Textures are separately as full permission at AJ's Textures Gallery (AJTG). Some are packaged in groups along with a download HUD for FP textures. Transfer only textures are available at a lower price. You can always send a request for custom packages. Packages are discounted. Current pricing is available at TCGWS.

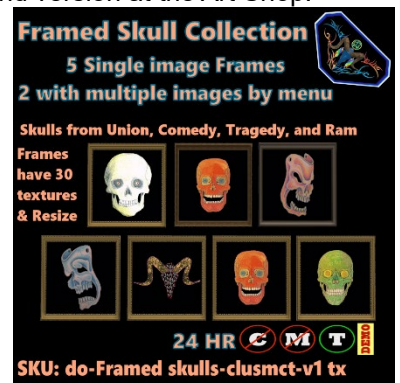

Artworks have a demo version available on vendors or the marketplace. They also have a HoloVend version at the Art Shop. Crates may contain an Information HUD. Uncreated items may have this come as a second item.

### UNPACKING CASPERVEND

Packages with multiple items will be in a decorative crate. The crate has a label on one side. The label changes on touch and has the product label, a blank, and any information that applies. The crate is Copy Only, even with FP textures. Single items are uncreated and ready to use.

CasperVend items will show up in your Objects Folder. You'll need to rez the box and open it to copy to your inventory or rez to ground. The same type of item is also delivered by SL Marketplace, and it will go to your Received Items Folder in your Inventory.
