

Tour HUD for Thunderchild Gallery Workshop

NOTE:

The HUD comes unpackaged and ready to use. It provides a standalone or onsite tour.

Touching the default image will open the online PDF for the Gallery.

The points of interest (POI) and images change with the left- or right-hand arrow. The text information for each image is displayed in nearby chat.

Touching the map icon for any POI will bring up the world map with the location marked. The LM will also be in local chat to use for a TP.

It provides a point-by-point walking tour of the gallery starting at the front door and ending at the TCGWS Office.
