

Web Heads Textures and Products

Product from the Thunderchild Gallery & Workshop (TCGWS). Artwork and textures are by AJ Leibengeist. You can find products in both Second Life and Real-Life storefronts.

NOTE:

The “Web Heads” are a collection of silhouette animal heads filled with webs and spiders. The web head heads are available with transparent backgrounds. The web heads are combined with different backgrounds to create images retail, for clothing, canvas, and framed artwork. All the web heads and backgrounds are available as full permission textures at AJ’s Texture Gallery (AJTG). You can also request custom sets from AJTG. Copy only textures are available at the KOCK Pit at TCGWS and Casper Vendors. The Second Life Marketplace will have a limited selection.

As artwork, it is available on both mesh and prim canvases with modify and copy permissions, and with modify and transfer permissions. That’s two prims and two mesh canvases with the set of permissions. The modify permissions allows you to link to a frame. Depending on the frame you have, either the prim or mesh will link with the lowest LI impact.

There is a test package with these canvases sets for test with your frame. SKU: o-Canvas Tests.

Framed artwork is transfer only currently. Canvas artwork has both the texture menu script and the resize script. The resize script should work with the frame you use from the canvas transferred to the frame. The framed artwork from the shop is a two-piece link mesh frame and a prim canvas. There is a texture menu script for both the canvas and the frame. The resize script is in the frame. There will be single piece mesh framed artwork later.

ARTWORK DISPLAYS
