

TEXTURE DEMO HUDs GENERAL INFORMATION

NOTE:

The demo HUDs for textures are used to preview samples of textures for sets of full permissions (FP) and copy only permissions (CO) textures. Both FP and CO products are available inworld on Casper Vendors first and later online at Second Life (SL) Marketplace (MP).

Demo HUDs have a limited lifetime. They will delete after 30 to 60 minutes.

The PDF icon opens the URL for the most current online PDF for that set of textures or the collection.

The thumbtack gives the landmark for AJ's Texture Gallery (AJTG) for FP texture vendors or the KOCK Pit at Thunderchild Gallery Workshop (TCGWS) for End User CO texture vendors. Both locations in the Milda Region.

The HUD label will give a notecard listing the images in order.

A watermark screen covers the texture display area. Touch the displayed image anywhere that is not covered by the watermark to advance the image.

The display face for the images will be shaped for the textures. Most times it is a 1:1 ratio for 1024x1024 images. There are portrait and landscape rations for those images.

The first image is the product's image as shown on vendors and marketplace pages. The product's image will also be on the back of the HUD.
